## Goals

- Select an enterprise software solution to overhaul our procurement process
  - Enable real-time risk management
  - Bring AI into our supply analytics
  - Use models to improve decision-making and drive down cost

### Provider 1

- Strengths:
  - Emphasis on real-time integration
  - Dashboards to give our procurement team insights
- Weaknesses:
  - 76% quantitative rating for supply management
  - No natural AI features (lacking function)
  - Need for additional customization

### Provider 2

- Strengths:
  - Predictive insights
  - o Contract management
  - Several categories that perfectly meet our RFQ
  - Education highly rated
- Weaknesses:
  - o Cost
  - OPlatform portability?

#### Provider 3

- Strengths:
  - o Cost relative to Provider 2
  - o Real-time data
  - Superior integration with existing system
- Weaknesses:
  - Manufacturing strength lowest rating
  - o Training approach could present problems
